Tom Carreiro

Carreiro Builders

Dear Tom,

We would like to express our appreciation for your work with us on our new home. It's been a year since completion and it's given us time to reflect on the process. As you remember the design had some unique curves and details that were a challenge to most of the contractors we spoke with. After we spoke with you, we shopped around for a year, which was a learning experience for me. Your flexibility to our design and "no problem" attitude made things easy. We had heard that building a home is a huge undertaking and can be very stressful on a family. I cannot stress enough that your honesty and value really made this process as easy as possible.

Thanks again for making our dream a reality,

Mike & Tamra Pinoris
