To whom it may concern,

Our firm has had the pleasure in working on a number of projects in which our clients have chosen and built with Carreiro Builders. We and our clients have been extremely satisfied with the experience and would highly recommend them for your project.

They have built both custom homes and extensive addition / remodel projects for our clients. In both cases their attention to detail, problem solving, timeliness, professional skill, and building experience has been integral to making the projects a success. We also appreciate the fact that once the projects are underway that Carreiro Builders has a firm grip on the construction process, follows the intent of our plans, and has required little if any unnecessary oversight from our firm.

It is noteworthy to mention, that Carreiro Builders has built a number of our coastal projects which tend to be complex and intricate in design. Additionally, the coast tends to be a harsh environment wherein it is difficult to build a water tight home. In all respects to these and other design considerations for the construction of these projects, we and our clients, have been more than pleased with the results.

Our firm would not hesitate to recommend Carreiro Builders for future projects and look forward to working with them again in the future.
