Letter of Recommendation for:

Tom Carriero

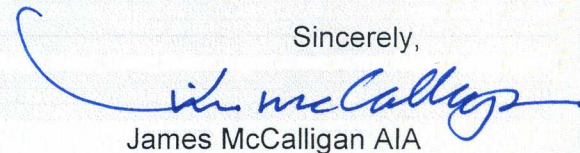

To whom it may concern,

I have known Tom and his work for over 20 years and have completed at least 18 projects with him. As an Architect, it is very important to establish relationships with contractors that you can trust to serve the clients interest. Tom has proven to be that kind of contractor.

Tom has always understood the role of the Architect during the design and construction process. He has embraced the Architect, Owners and Contractor team concept, keeping communication with all the players open at all times. His excellent communication skills have helped to produce successful projects.

I have no reservations in recommending Tom to any of my future clients for most any size of project. Tom Carriero has always performed above and beyond the call of duty as a highly skilled craftsman, and problem solver. He has always put the quality of his work first. Combine that with his refined professionalism as a construction project manager and his ability to deliver his projects on time and on budget and you have a my idea of the an excellent contractor.

Sincerely,

James McCalligan AIA
